

"Forensic" Labs: Supporting Crime Lab Investigations

Detect, Collect and Process Samples of Evidence from Crime Scenes, Suspects and Victims
Solving Today's and Yesterday's Crimes

Eaton Solutions for "Forensic" Crime LabsBeyond Traditional Furniture

Eaton's Forensic Lab Systems

Eaton's Lab Management Systems (LMS) provides flexible solutions for technology intensive environments to create a productive and useful solution for a variety of forensic labs

Lab Benching Solutions

Electrostatic Discharge (ESD)
Meets and exceeds industrial and military standards for electrostatic control.
Common point grounding assures the entire workstation has equal grounding potential

Lab Benching Solutions

Eaton's benching solutions provide a modular and flexible solution for most any forensic lab requirement, integrating technology and user workflow requirements

Lab Benching Solutions

Highly modular and configurable benching solutions meet the rigorous demands of a high end technical lab environment

You put your all into designing a high-performance "forensic" crime lab that is productive and long-lasting. It's only logical that your lab's technical furniture solutions follow the same standards.
